

COVID PRECAUTIONS AT **AVONWAY** February 2022

Covid precautions are no longer legally binding **but** people you come into contact with may be clinically vulnerable and covid infection rates in the community remain high: We ask that to protect yourself ***and others when*** you attend Avonway that:

- **You are fully vaccinated unless medically contra-indicated**
- **You wear a mask in crowded areas especially corridors and toilets**
- **You maximise ventilation in the rooms you use by opening windows**
- **You stay away if you have Covid-like symptoms unless you test negative but even if negative do you *need* to spread colds or ‘flu’?**
- **You continue to use hand sanitiser on arrival**
