

Heating System Instructions

To ensure the comfort of all users and allow us to keep the cost of hiring the Hall to be kept to a minimum, please follow these instructions when using the heating system.

- The system is controlled by the +1 Hour button on the control panel (located on the electrical board near the serving hatch in the kitchen - picture 1)

- Use the +1 Hour button (picture 2) to turn the system on for 1 hour. Then switch on individual heaters (Picture 3) as required around the main hall and lobby.

- In normal use, it should only be necessary to turn on a single element on each heater.

- Please do not turn on both elements on the individual heaters unless absolutely necessary, or turn the thermostatic control up full. These actions will massively increase the electricity usage.

- If your hire is for longer than 1 hour, press the +1 hour button again as required. Pressing the button while the 1 hour timer is already on will turn the heating off - there is no facility to turn on for more than 1 hour at a time.

- At the end of your hire, PLEASE TURN OFF ALL HEATERS INDIVIDUALLY, INCLUDING THE FAN HEATER OVER THE OUTER DOOR AND THE LOBBY HEATERS IF THESE HAVE BEEN USED.

REMEMBER: HEATING COSTS MONEY: HELP US KEEP YOUR HIRE CHARGES DOWN
