

PATTISHALL HALL – KITCHEN – OVENS

Oven on Large Hall side of kitchen

1. Turn on the big red switch next to the kettles near the metal hatch shutter. Down is on.
2. The digital clock will flash zero. The oven will not work until the clock is set (it can show any time). To set the clock depress together the two left hand buttons below the clock – one says the word timer, the other shows a pan with steam. They must be pressed together and held down.
3. Then press the plus button (+) to show digits on the clock face. Release all buttons. The clock face should now show a time and no longer be flashing. Oven will now work.

Oven on Small Hall side of kitchen

1. Turn on the big red switch to the right hand side of the metal shutter above the metal heating cabinet,
2. The oven will now work.
