

General Information about the hall

There are two rooms available - the small hall and the large hall.

The small hall is suitable for meetings and for small parties. The small hall is approx 17ft by 36ft.

The large hall is suitable for receptions, parties and dances.

With its high ceiling, the large hall is especially suitable for badminton; there are currently four badminton groups using the hall regularly. The large hall is approx 56ft x 35ft.

The hall is also large enough for a bouncy castle (please check the size first), so if you are planning a children's party, but don't want to be rained off, this is the place you are looking for.

Kitchen facilities are available with either hall.

In addition, we can provide crockery and cutlery hire for up to 100 place settings. Prices quoted below for hire of tables, crockery and cutlery refer to off-site use. Use of these items is included **free of charge** if hiring the hall.

There is a large car park at the front of the building.
