

PEARSON HALL SAFEGUARDING UPDATE

FEBRUARY 2023

Following Step 4 in July 2021 all legal COVID-19 restrictions have been lifted and replaced with guidance.

The basic principle that now applies is that individuals are responsible to take such precautions to guard against infection as they deem to be appropriate but sensible precautions are recommended such as wearing masks in crowded areas and maintaining good ventilation in confined spaces.

The Pearson Hall Management Committee has reopened the hall to its users. The responsibility for safeguarding users is the responsibility of the hirer. Hirers should follow the advice provided by national or local organisations covering their specific activity where appropriate.
