

Ropsley Hall

Ropsley Hall has been officially opened after years of hard work and commitment from the local community. The new hall built adjacent to the site of the old Ropsley Memorial Hall was officially handed over by Burmor construction, the builders in September 2020. However, due to the Covid 19 pandemic the facility could not be opened for public use until June 2021 and an official opening ceremony took place in May 2022.

The £880,000 for the new hall was raised through a combination of grants from the Big Lottery Fund, The Football Foundation and Sport England. The remaining money came from hall funds, other charitable sources and the generosity of the people and businesses in and around the Ropsley area.

Ropsley Hall includes a 100+ seater main hall, a smaller meeting/community room with the capacity for 30 people, a fully fitted, spacious kitchen and a separate sports facility with changing rooms for two teams and two officials. It sits on the southern edge of the village playing field which comprises football pitches, cricket square, a playing field, play park as well as a floodlit carpark. It is the home ground for both Ropsley Football Club, Ropsley Colts Football Club and Ropsley Baboons Cricket Club.

Ropsley Hall is a hidden gem bringing leisure to life, the hub of the community with many wide and varied activities on offer during the day and evening throughout the week and weekends.
